

## **eWebHosters.com**

### Description:

All of our clients benefit from having multihomed connectivity to several tier one backbones including: Savvis, Level 3, XEEX, XO, Qwest, MCI, Global Crossing. You can relax knowing you are hosting in a state of the art, 15 million dollar, carrier neutral data center with redundancy on all systems including routers, switches, fiber pathways and air conditioning as well as both DC and AC power plants. This gives us the ability to offer superb managed hosting plans.
